SUBJECTS

Technical Proficiency	MySQL,Artificial Intelligence,CSS,DBMS,Java,AIML,ML,HTML5,Python,Testers

WORK EXPERIENCE

INTERNSHIPS

AICTE Internship on AI:TechSaksham Project Using AI and ML	Participated in a joint CSR initiative by Microsoft & SAP to learn and implement AI-based solutions. Gained hands-on experience in AI tools and technologies for transformative learning. Focused on leveraging AI for educational purposes and skill development. **https://moviesbot.streamlit.app/**	Nov 2024 - Dec 2024
Vinsys IT Services India Pvt Ltd Junior Java Full Stack Developer	**Junior Java Full Stack Developer Intern** *Vinsys IT Services, Pune* • Developed and maintained web applications using Java, Spring Boot, and Hibernate. • Designed responsive front-end interfaces with HTML, CSS, and JavaScript. • Integrated REST APIs and managed databases using MySQL/Oracle. • Gained experience in agile development and collaborative coding.	Aug 2023 - Feb 2024

PROJECTS

Apni Dukan Website	The website is an e-commerce platform that sells a variety of products, including mobile phones, books, furniture, and more. It features sections for special offers with discounts, as well as latest gadgets and trending shoes. The site has a standard e-commerce layout with a navigation menu, product search functionality, and a shopping cart. **https://desalebhavesh.github.io/Apni-Dukaan-Project/**	Feb 2025 - Apr 2025
Implementation of Chatbot using NLP	Developed an intelligent chatbot leveraging Natural Language Processing techniques. Enabled accurate user query handling with intent recognition and response generation. Focused on enhancing user interaction and experience through AI-driven solutions. **https://moviesbot.streamlit.app/**	Nov 2024 - Jan 2025
Personal Portfolio Website Using HTML,CSS and JavaScript.	A personal portfolio website using HTML, CSS, and JavaScript is a digital resume that showcases an individual's skills and projects. It utilizes HTML for structure, CSS for design, and JavaScript for interactive features. **https://desalebhavesh.github.io/PORTFOLIO-Main/**	Nov 2024 - Dec 2024
Simple Web Page	A simple web page is a single, static document on the internet that displays basic information. It's typically built with HTML for structure and may use minimal CSS for styling. **https://desalebhavesh.github.io/colmar/#**	Oct 2023 - Dec 2023
	Sentiment Analysis on Social Media	

	• Developed a system to classify social media posts into positive, negative, or neutral sentiments using NLP techniques. • Implemented text preprocessing, sentiment classification with ML models (e.g., BERT, LSTM), and trend visualization. • Extracted actionable insights for market research and user behavior analysis. • **https://sentiment-analysis-8j95.onrender.com/**	
Sentiment Analysis on S ocial Media		Feb 2022 - Jun 2023

CERTIFICATIONS

Programming for Everybody (Getting Started with Python) Coursera	foundational online course designed for beginners with no prior programming experience. It teaches the basics of how to program using the Python language, covering concepts like variables, loops, and functions.
Salesforce Developer Virtual Internship Salesforce	• Learned core Salesforce concepts, including CRM workflows, Apex programming, and Lightning components. • Designed and implemented custom solutions using Salesforce tools. • Gained hands-on experience in building scalable and efficient Salesforce applications.
HTML codeacademy	HTML
CSS codeacademy	CSS
MySQL codeacademy	MySQL course teaches students how to use the SQL language to manage and query relational databases. The curriculum covers key concepts like creating and manipulating tables, performing complex queries, and working with multiple tables using joins.
Java Course codeacademy	it is a beginner-friendly program designed to teach the fundamentals of the Java programming language. The curriculum covers key concepts such as basic syntax, variables, object-oriented programming (OOP), and built-in data structures
Front-End Engineer codeacademy	The Codecademy Front-End Engineer career path is a comprehensive program designed to teach the skills needed to build and style interactive websites. It covers core technologies like HTML, CSS, and JavaScript, as well as popular libraries like React, and provides hands-on experience through multiple projects.
Introduction to Machine Learning Coursera	• Gained foundational knowledge of machine learning algorithms and techniques. • Worked on supervised and unsupervised learning models using Python libraries like Scikit-learn. • Applied ML concepts to analyze datasets and make predictions.
Web APP Development with ASP.NET Infotech	• Designed and developed dynamic web applications using ASP.NET framework. • Implemented front-end interfaces, back-end logic, and database integration. • Focused on performance optimization and user-friendly design. •

COMPETITIONS

District level Research Paper Competition		Apr 2022
National Level Tchnical Event		Sep 2019
